

Practices for Lesson 17: Defining Your Physical Model

Chapter 17

Practice 17-1: Create a Physical Model

Task

In this practice, you perform the following:

1. Create a physical model for the Rental Agreement relational model Relational_1 from Practice 15-2 (sol_15_02_a.dmd).
2. Change the name of Relational_1 to Vehicle Rentals.
3. Create a tablespace and a user for the model.
4. Add a partition to the Rental Agreement table so that you can access the rental agreements for a given month quickly.
